

ITIL® 4 Specialist - Create, Deliver and Support

TRAINING COURSE OUTLINE

Introduction

The ITIL® Specialist – Create, Deliver & Support (CDS) is one of five courses needed to achieve ITIL 4’s Managing Professional (MP) designation.

This 3-day course covers the core service management activities and expands beyond the current scope of ITIL v3 to cover the ‘creation’ of services.

The course agenda covers the following ITIL 4 practices to help you understand the major factors that contribute to the successful creation, delivery, and support across ITIL’s new service value system (SVS) business model:

- ❖ Service design price and orchestration
- ❖ Software development and management
- ❖ Deployment management
- ❖ Release management
- ❖ Service validation and testing
- ❖ Change enablement
- ❖ Ensuring stakeholder satisfaction
- ❖ Service Desk
- ❖ Incident management – detection and resolution
- ❖ Problem management
- ❖ Knowledge management
- ❖ Service level management
- ❖ Monitoring and event management

Duration

4 – days workshop

Course Objectives

The course will help participant understand how to plan and build a service value stream to create, deliver, and support services:

- ❖ Learn the concepts and challenges that relate to organizational structure, team capabilities, roles, and culture across the Service Value System (SVS)
- ❖ Understand the value of positive communications
- ❖ Understand the planning and management of resources in the SVS
